

CP200

Time Attendance Palm and Face Recognition

Multi-Biometric T&A Terminal With Access Control Functions

CP200 is a multi-biometric identification time & attendance and access control terminal, which can connect with third party electric lock, door sensor, and exit button etc. With the latest palm/face identification algorithm and streamlined technology, it can hold 200 Palm templates and up to 200 Face templates without dividing into groups

With the latest palm/fingerprint identification algorithm and streamlined technology, it can hold 200 palm templates and up to 200 Face templates without dividing groups. Communicating via Wi-Fi, TCP/IP, and USB host, it ensures a smooth connection and data transfer.

Features

- 200 Palm Recognition
- 200 Face Recognition
- 50,000 Log Capacity
- Communication: TCP / IP; USB Host
- Interfaces for 3rd Party Electric Lock, Door Sensor, Exit Button
- Power Supply: DC 12V 1.5A,
